

Goma – Democratic Republic of Congo

Eddy-Idrissa Hemedry

Software engineer

Passionate about computing, particularly artificial intelligence and web design, I am a Software engineer, full stack web programmer and a Civil Engineer in Computer Science from university, with a solid foundation in accounting and economics. Throughout my education, I have gained a strong intellectual background.

My good communication skills make it easy for me to express my ideas effectively, seek help, and bring different opinions together. In a team, I play a key role in analyzing situations to offer expert insights that boost progress, often acting as a motivator and leader in project management.

Positive, courageous, and patient, I handle complex and ambiguous questions well, work under pressure in a constantly changing environment with tight deadlines, while combining seriousness with joy to create a harmonious and cheerful work atmosphere.

Education

Engineering Sciences

ULPGL, Goma, DRC - From October 2019 to February 2024

Passionate about computing, particularly artificial intelligence and web design, I am a junior web programmer and a Civil Engineer in Computer Science by training, with a solid foundation in accounting and economics.

Secondary Studies

Teresa Mira, Goma, DRC - From October 2019 to February 2024

Passionate about computing, particularly artificial intelligence and web design, I am a junior web programmer and a Civil Engineer in Computer

Primary Studies

Teresa Mira, Goma, DRC - From October 2019 to February 2024

Passionate about computing, particularly artificial intelligence and web design, I am a junior web programmer and a Civil Engineer in Computer

Goma – Democratic Republic of Congo

Software Skills

Web Design

Figma, Framer, AI Tools

Exceptional web designer proficient in Figma and Framer, delivering modern and user-centric digital experiences. Skillfully employs AI tools to elevate design processes and achieve outstanding results.

Project management

Agile methodologies

Agile project manager delivering exceptional results via modern techniques that optimize planning, execution, and collaboration for streamlined success.

Frameworks & Languages

Next.js, React.js, React Native, Flutter, Python, TypeScript, JavaScript

Expertise in modern web development stacks, alongside mobile frameworks for building scalable and high-performance applications.

Trainings

Junior Web Developer

DCCB, Goma, DRC - From February 2022 to April 2022

- ✓ Worked on analysis team for software engineering purpose
- ✓ Conceived and built SQL databases using Microsoft SQL Server
- ✓ Worked project backend teams using the MVC architecture
- ✓ Get initiate to technical writing and React.JS

Full stack Web Developer

KADEA Academy, Goma, DRC - From August 2024 to October 2024

I worked on a web project, from conception to full deployment on Internet. On this project I used all the required software skills I had and learned much more to achieve it.

- ✓ Worked with Trello to develop and manage the project
- ✓ Used Figma for frontend design
- ✓ Developed the entire app in Next.JS
